Notes from old ID:

Date of c. 1940 is a semi-educated guess per Carrie - he carved between 1930 and 1964.

DC bought a group of 3 Barela sculptures from Ramon for \$2500. Bobrick is apparently going to put them in his booth at the Denver Antiques show - it does not sound like DC will be bringing them in prior to giving them to Lew. The cost was divided equally between the three for now as no other instructions were given. CW
